

It does not surprise me that the FCC under the Bush Administration is granting free license for media corporations to air biased, partisan programming without demanding equal coverage for the other side.

Frankly, I find it appalling, and if you think it's going to do the Bush Administration any good in the upcoming election you are gravely mistaken. Do you think the American public is so naive? The purpose of this and the unabashed complicity in all of it on the part of the administration, the FCC and the media giants is totally transparent.

I urge the FCC to deny Sinclair Broadcasting the right to air an anti-Kerry documentary until after the election or at the VERY LEAST, mandate as is required by law that they give equal time to the other side. If they aired "Going Upriver" or "Fahrenheit 9/11" shortly before or after the airing of "Stolen Honor", that would be entirely acceptable.

I'm not promoting censorship, I'm promoting fair and balanced use of OUR public airwaves. If SBC refuses to comply with federal communications laws, then their license should be revoked.

Thank you for your time, and I hope you will take honorable action (speaking of "Stolen Honor"...more like "Purchased Honor" in this case!!)
